

Navsea Capabilities and Facilities

NAVSEA Warfare Center Enterprise

Capabilities

- Force Level Warfare Systems Engineering and Integration
- Force Level Warfare Systems Interoperability Engineering
- Special Warfare Maritime Mobility, Mission Systems, & Mission Support Equipment
- Integrated Surface Combat Control Systems Support
- National Response Missions, Including Homeland Security & Defense
- Integrated Training Systems
- Radar Distribution Systems
- Joint Command and Control Systems Integration and Architecture Development

Facilities

Integrated Training Capabilities Complex

- Coalition Systems Development & Support
- (TSTS/BFTT) Development & Acceptance
- ACDS/SSDS Training Systems
- SQQ-89 Training Systems

Force Integration & Interoperability Complex

- Joint Test & Training Facility, JNTC Coordinated Hub
- LBTS, Test Control Center, Coalition OpCenter,
- Live Integrated Data Links & Sensors, HF/UHF Comms

Integrated Combat Control Systems Complex

- Mockups – CV/CVN/LHA/LHD/LPD/FFG 7, Coalition
- ACDS/SSDS Trainers and Simulation Test Beds
- Integration, Tech Refresh – LHA, AN/UYQ-70, ASDS
- Networks Test and Evaluation Lab, Display Systems Support Facility

Information & Special Warfare Systems Complex

- Foreign Ops Integration Support Lab
- Special Technologies Development Lab
- Intelligence Systems Lab, Staging & Training Facility
- Harsh Environments Lab
